

CHOOSE FROM: HANGING

OR POST MOUNTED

6", 8" or 12"

All fixtures come pre-wired and ready to tie into your power source. The post-mounted components include 2 ft of excess wire and the hanging lights include an extra 30 ft of wire. Additional lengths of wire can be purchased on a per foot basis.

PLEASE NOTE: Our lights must be powered through a 12v Transformer, which must be purchased separately.

ASSEMBLED IN THE USA WITH HIGH QUALITY GLOBAL MATERIALS

- Our 6" globes are hand blown by an artisan using the highest quality materials.
- We use 6061 machined aluminum for the colored components and each piece goes through a 3 step anodizing process. The finished product is durable, long lasting, and resistant to the elements.
- 90 day warranty on all components.

UNIQUE AND CUSTOMIZABLE

- Since each piece is hand blown, that means no 2 globes are exactly the same. We strive to maintain color consistency, but each unique pattern will create a special feel to your outdoor space.
- We currently offer 4 colors of globes and 6 colors of aluminum components, giving you plenty of options to personalize your space, or even change out colors for different seasons! We are always looking to expand our color assortment, so keep an eye out for new arrivals.
